### NONCOMPLIANCE SUMMARY

When the defendant was confronted with the hospital documents by the officer in the Central District, he admitted to using Heroin on July 5, 2008. He stated it was a one time use and he has not used since. As a result of Mr. Lorenzana's admission, he has been enrolled in counseling with a contract facility in the Central District of California. His test results with Pretrial Services have been negative to date. The defendant and his mother deny he was in Mexico prior to his hospitalization, despite what is noted in the hospital paperwork.

**SUPERVISION ADJUSTMENT**

Mr. Lorenzana has been on pretrial release since March 19, 2008, and has been supervised by the Central District of California, due to the location of his residence. Since that time, he has reported as directed, has not provided a positive urine sample, and has made all of his court appearances. However, he did admit to using marijuana on or about March 26, 2008.

**DEFENDANT PERSONAL HISTORY/CHARACTERISTICS**

Mr. Lorenzana is a nineteen year old citizen of the United States. He resides with his mother, girlfriend, and son in Los Angeles, California. His girlfriend reportedly works and the defendant stays home to care for their son. Other than his recent hospitalization, he maintained he is in "okay" physical health. He has been diagnosed with schizophrenia for which he takes medication daily. He reported a history of marijuana use, with his last reported use in March of this year. The defendant reportedly did not complete high school and is on public assistance.

**RECOMMENDATION/JUSTIFICATION**

At this time, our office is requesting the defendant be cited into court to show cause why his bond should not be revoked. He has admitted to using heroin while on bond, and he allegedly traveled to Mexico without court permission.

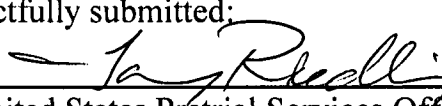

**I declare under penalty of perjury that  
the foregoing is true and correct.**
